## Education Seminar conducted by: CEU 411

Please contact us by email at [CEU411@yahoo.com](mailto:CEU411@yahoo.com) or [sunnyloft@hotmail.com](mailto:sunnyloft@hotmail.com)

## Speaker

Sharon M. Lofton, R.N. is both a psychiatric mental health and critical care nurse with over 21 years of experience. For the past eight years, Sharon has taught psychopharmacology to both graduate students and faculty. Sharon is an alumnus of the prestigious and well renowned Oxford University Roundtable on Aging in Oxford, England. She will return to Oxford University for the Roundtable on Social Justice in July, 2010. Sharon is currently practicing as a clinician and new graduate nurse preceptor. The provider is approved by the California Board of Registered Nursing Provider Number CEP 15079 for 10 contact hours. Installment payment plans are available. Please contact [ceu411@yahoo.com](mailto:ceu411@yahoo.com) for the installment plan. BRN approval extends only to the continuing education course and does not include tour arrangements.

## Course Description

This seminar is designed to educate licensed nurses indications and administration of antipsychotic medications. The examination of the etiology of disorders and common medical indications for the use of antipsychotic medications will be provided. Review of the nursing process with teaching strategies for safe, medication compliance will be provided.

## Learning Objections (continued)

Upon conclusion of the patient pain management seminar, the licensed nurse will be able to:

- List the various indications for antipsychotic medications.
- Differentiate the characteristics of antipsychotic medications in terms of mechanism of action, side effects, and adverse effects.
- Compare and contrast atypical versus typical antipsychotic medications.
- Identify pertinent areas of the mental status examination to be assessed by the nurse for patients prescribed antipsychotic medications.
- Discuss nursing implications for the use of antipsychotic medications in emergency situations.
- Articulate use and nursing responsibilities in special populations and the use of antipsychotic medications.
- Identify pertinent patient and family teaching information to facilitate antipsychotic medication compliance post discharge.
- Identify symptoms of antipsychotic medications noncompliance.
